Presentation of Montenegrin furniture manufacturing companies

I would like with the great pleasure to submit the presentation regarding collaboration with Montenegrin furniture manufacturing companies, prepared by the Montenegro Investment Agency.

The presentation contains all the relevant information, from the overview of Montenegrin most renowned companies in furniture manufacturing sector to the average prices of raw material.

We would appreciate to further distribute this presentation to potentially interested partners.

I sincerely believe that we can develop relations in this area and I would kindly ask you to inform us or contact them in case of interest for cooperation in the furniture production field.

The Embassy of Montenegro in Athens and me personally are at your disposal for any additional information.
