Subject: Invitation to register expression of interest to join Qatar Public Works Authority's Supply Chain Contractors

Qatar's Public Works Authority, "Ashghal's" vision is to achieve excellence in delivering and managing efficient sustainable infrastructure. Ashghal, represented by the Assets Affairs Department, is providing local and international contractors with supply chain opportunities to provide operation and maintenance services to its assets, over a 10-year duration.

Ashghal seeks experienced and capable local and international suppliers to be part of a successful world-class supply chain, delivering added value services to its operations and customers. Therefore, we would like to invite your esteemed Commercial Attaché to encourage its business community/relevant contractors to participate in this great opportunity.

Ashghal would like to procure contractors to carry out operations and maintenance, repair, replacement and rehabilitation works under this single framework contract which is expected to be released for tender in the first quarter of 2019.

Successful framework contractors will be awarded fixed operations and maintenance work orders under four specified *Catchment Zones*, as well as initial planned repair, replacement and rehabilitation work orders for each of the four zones (for full brief and timeline please refer to the attached technical brief).

Awarded framework contractors will become Ashghal's key partners and will work alongside the organisation in a collaborative manner to ensure the delivery of high quality and cost effective solutions that will benefit our customers and society.

STATE OF QATAR Public Works Authority

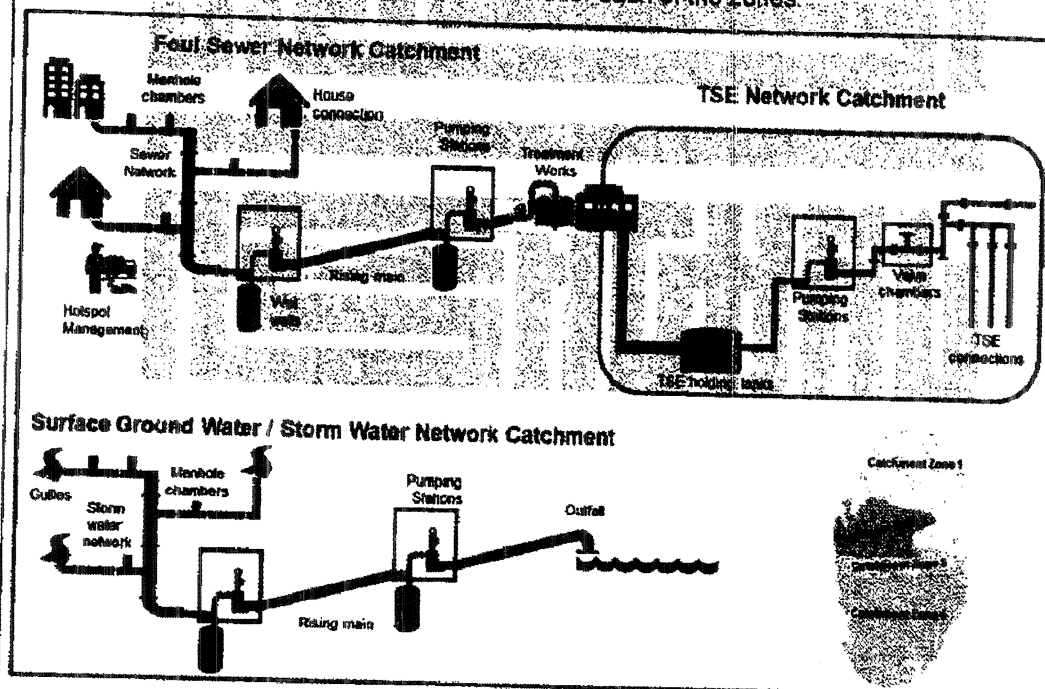

2019+ Procurement Strategy

PROJECT OUTLINE

General

The Public Works Authority of Qatar wishes to procure Contractors to carry out operations & maintenance and repair, replacement and rehabilitation works under a Single Framework (FW) of 10-year duration.

Framework Contractors shall be awarded fixed Operation & Maintenance Works orders under specified Catchment Zones as well as initial planned repair, replacement and rehabilitation Work Orders for each of the zones.

Note: The Catchment Zones identified are for illustrative purpose only and are subject to change.

Tendering for this Framework is planned to commence in Q1 2019

Project Outline

The operation and maintenance scope of works includes:

- All existing authority operated pumping stations, Sewage Treatment Plants (STWs) and associated Foul, SGW and TSE networks within each zone;
- Any new pumping stations, STWs or network additions added to the Authority's assets during the framework contract period;

- C. Carrying out operations and maintenance activities on all equipment/system/unit installed on site including valve chambers, rising mains, valve chambers etc;
- D. The planned, preventive and reactive maintenance, overhauling and repair, refurbishment or enhancement of the site and associated systems;
- E. Disposal of waste products, bypass pumping and traffic management;
- F. The furnishing of all labour, supervision, vehicles, tools, materials, consumables, equipment, supplies, spare parts, emergency equipment, approved supplier workshop(s) and testing, incidental engineering, and transportation necessary for the completion of the works;
- G. The completing of records and reports throughout the term of each work order which shall be updated on the authority's computerized management system;
- H. Water quality testing at the STW and PS sites as required.

The repair, replacement & rehabilitation scope of works includes all civil, electrical and mechanical works related to:

- A. House connections;
- B. Gullies;
- C. Catch pits;
- D. Inspection chambers;
- E. Manholes;
- F. Foul gravity sewers;
- G. Rising mains;
- H. Surface ground water pipelines;
- I. Treated sewage effluent pipelines;
- J. Lagoons;
- K. Soak-aways; and
- L. Any associated assets, fittings and accessories including all attenuation tanks, chambers, valves, covers, grates, signage and access.
- M. Any new assets added to the authority's network during the framework contract period.

Collaboration

Framework contractors will become key partners in the Authority's supply chain and shall be committed to working together in a collaborative manner to ensure the delivery of high quality, and cost effective solutions.

Expression of Interest

All interested parties are encouraged to submit an Expression of Interest providing experience in managing similar projects as part of the initial engagement by 31st August 2018.

Please submit your Expression of Interest, key contact details, covering letter and portfolio of similar experiences to the following Contact:
