An integral part of Wine Vision by Open Balkan

Wine Vision by Open Balkan offers a number of opportunities for establishing solid business connections.

The first day of the fair is reserved only for professional visitors, and all buyers and exhibitors have at their disposal comfortable and spacious rooms for B2B (Business to Business) meetings, presentations and workshops, in addition to complete logistics for undisturbed food and wine tasting.

That is why B2B meetings of wine exhibitors, representatives of leading retail chains, representatives of the HORECA industry and wine shops provide an opportunity to enhance cooperation, network regional wine and related industries and strengthen business partnerships. Special conditions are provided for exhibitors, which include the rental of exhibition space at subsidized prices. To provide potential consumers with the opportunity to buy the exhibited products, the fair will be organized as a trade exhibition.

Improve your skills with the help of best experts and sommeliers!

Masterclass workshops will also be organized during the Wine Fair, the aim of which is to show the general and professional public the art of making top-quality wine, and to bring closer the historiographical aspects of wine production and the perspectives of this dynamic and propulsive industry. Lectures and workshops will be held by the most renowned experts, sommeliers and wine connoisseurs from the region and the world.

In addition to exquisite, authentic wines, the Balkan countries are also famous for its rich culinary heritage, which we owe to interweaving influences from the Mediterranean, the Orient and Central Europe. A part of the fair will be dedicated to gastronomy and food producers, with a special programme in which the best chefs and cooks of the region, including Michelin-star-awarded chefs, will participate. Wine judging and competition- the Open Balkan Wine Trophy, will be also organized after which the best-rated wines in different categories will be announced.
